

### **AGENDA-RELATED SUPPLEMENTAL INFORMATION**

The School Board is committed to making informed decisions on behalf of the citizens and to conducting school district business in a transparent and responsible manner.

To ensure the board has the information necessary to make informed decisions, the Superintendent occasionally prepares and disseminates information to supplement items on the board's meeting agenda. In addition sub-committees of the board may submit reports of their activities and actions. All members of the school board will receive the agenda and any related supplemental information in advance of the board meeting in order to allow them to review the material.

To ensure the public has access to information that the board may use to make decisions, agenda-related supplemental information provided to all board members in advance of the meeting will be available for public inspection by posting such information on the District's website or by providing a copy in the business office 24 hours in advance of the meeting and having a public copy at the school board meeting. The District's policy regarding copying charges will apply to this material. Any information protected from disclosure by state or federal law shall not be disclosed to the public.
