

PROFESSIONAL STAFF RECRUITING

The Board desires the Superintendent to develop and maintain a continuous recruitment program designed to attract and hold the best possible professional personnel in the district's schools.

It is the responsibility of the Superintendent, with the assistance of other district administrators, to determine the personnel needs of the district and the individual schools, and to locate suitable candidates to recommend for employment.

The search for good teachers and other professional employees will extend to a wide variety of educational institutions and geographical areas. It will take into consideration the diversified characteristics of the district and the need for a bi-racial staff and for teachers of various cultural backgrounds.

Recruitment procedures will not overlook the talents and potential of individuals already employed by the district. Vacancies will be posted internally before being posted externally. Any interested staff member shall complete the application process. This in no way shall limit the Board in its consideration of all qualified applicants.
